

# iCHLOR®

## SALT CHLORINE GENERATOR

Smart technology for softer, silkier pool water.

# ORDINARY TABLE SALT. EXTRAORDINARY TECHNOLOGY.

The chemistry behind the iChlor® Salt Chlorine Generator makes it so simple to use—just add salt to generate the chlorine your pool needs. Our smart technology provides built-in intelligence for convenience and control. Touchpad controls enable fast checking of salt levels, chlorine output and cell life. Plus, iChlor makes it easy to set and adjust chlorine levels, reducing the need for repeated testing and upkeep.

## iCHLOR WITH SMARTSENSE™ DETECTION

Our advanced features deliver consistent operation for a cleaner and more enjoyable pool.

### SmartSense Cover Detection†

Reduces chlorine output when automatic pool cover is closed.

### iChlor With SmartSense Detection

### SmartSense Flow Detection\*

Assesses status of the IntelliFlo3® Pump before generating chlorine.

\* Only available on iChlor 30 (1.0) models.

† Requires separately purchased iChlor Cover Kit. Please refer to your pool cover manufacturer for additional instructions.

## UNMATCHED CONVENIENCE

Keep your pool water clear and inviting with electrolytic chlorine generation—an easier, more convenient way to maintain your pool. It's an alternative to manual chlorine addition without the drawbacks.

Provides an alternative to buying, carrying, storing or handling chlorine.

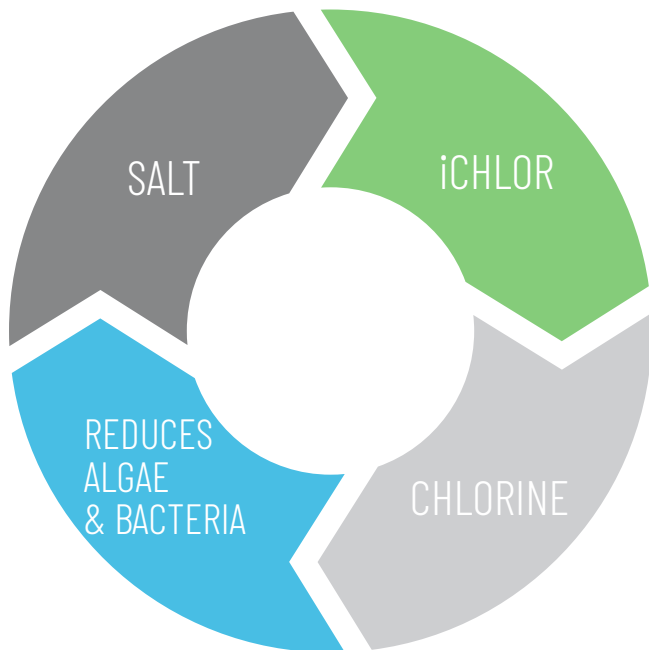

Reduces spills, odor, stinging eyes or irritated skin associated with handling chlorine.\*

Fewer bleached-out bathing suits due to chlorine.

## EFFORTLESS CHLORINATION

Simply adjust the output to achieve the desired level of chlorine. iChlor does the rest, automatically producing a steady stream of chlorine for softer, silkier pool water. What could be easier?

Once the chlorine has finished treating the pool, it reverts back into dissolved salt and the cycle repeats.

### Easy setup

Adjust your chlorine distribution time in 1% increments from 1%–100%. Push the button, and you're done.

### Smart design

Automatic reverse cycling helps prevent scale buildup. And the electronics are isolated in the cell and away from high-heat components for more dependable performance.

### Two model sizes

Choose from two model sizes to meet your pool chlorination needs. Sizing is based on pool capacity in gallons:

Available Models

- iChlor 15 (0.6) for pools up to 15,000 gallons.
- iChlor 30 (1.0) for pools up to 30,000 gallons.

### Fact center

- Indoor/outdoor, vertical/horizontal installation.
- 115/230V, 50/60Hz power center.
