

KREEPY KRAULY[®]

E-Z VAC[®]

ABOVEGROUND POOL CLEANER

The Kreepy Krauly E-Z Vac cleaner is designed just for aboveground pools, but its design is based on the same time-tested platform as the most popular suction-side cleaner in history: the Kreepy Krauly Inground Pool Cleaner.

PRODUCT FEATURES

- Innovative hydraulic design delivers optimum vacuuming power, and true random-pattern coverage makes sure floor is thoroughly vacuumed.
- Simple design for long, dependable life—"flapper" is the only operational moving part.
- Virtually maintenance free—no wheels or gears to jam, no diaphragms to replace, no bags or compartments.
- Free-skimming, adjustable valve regulates water flow to assure proper cleaning speed while allowing for skimming of surface debris—both cleaning jobs are completed at once.
- Works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- Installs to your skimmer in minutes without tools.

KREEPY KRAULY®

E-Z VAC®

ABOVEGROUND POOL CLEANER

Drive Tubes: Where water flow is intermittently directed to generate kinetic energy for mobility

Bumper Strap: Protects the unit, allows freedom of movement around steps and ladders

Swivel: Converts water flow into a single stream for maximum hydraulic efficiency and peak cleaning performance

Adjustable Regulator Valve: Sets ideal travel speed for more thorough cleaning

Flapper: The only operational part is housed inside the unit, divides water flow to help propel the E-Z Vac cleaner

WHY BUY THE E-Z VAC CLEANER FOR YOUR ABOVEGROUND POOL?

- It's thorough. The hydraulic design of the Kreepy Krauly E-Z Vac cleaner delivers optimum vacuum power, and its true random-pattern coverage makes sure your pool floor is thoroughly vacuumed.
- It's dependable. The E-Z Vac cleaner's simple design helps ensure a long, dependable life—the "flapper" is the only operational moving part.
- It's virtually maintenance free. There are no wheels or gears to jam or wear out, no diaphragms to replace and no bags or compartments to empty.
- It's a multi-task system. Free-skimming, adjustable valve regulates water flow to assure proper cleaning speed while allowing simultaneous skimming of surface debris. Both cleaning jobs are completed at once. It's engineered for your pool. It works flawlessly in both flat-bottomed and dish-shaped pools with a banked or radius cove.
- It's easy. The cleaner attaches to your pool skimmer in minutes without tools, so it can start vacuuming leaves, dirt, sand, insects and other debris from your pool immediately.
